### HEAR IT, FEEL IT, LIVE IT, SHARE IT – GOD'S LOVE

Dear siblings in Christ,

Lately I've been noticing that I have been holding my shoulders up by my ears more often than I used to. The stress of this pandemic, of not knowing what tomorrow will look like, of a politics filled with anger and streets filled with rage, of worrying for all of y'all as I regularly check the health department numbers—I have felt so much weight. And I know that y'all have too. Disappointments of cancelled events from sports to shows, the stress of kids in school (or not in school—who knows?), the upheaval of how we worship together, are all weighing on us as a congregation, as a community, and as a nation.

And in my devotions recently I came across the text from Psalm 46. If you have your Bible handy, take a minute to open it up and read that Psalm. It's no wonder why so many amazing hymns have been based on these words. "God is our refuge and strength." "Be still and know that I am God!" "The nations are in an uproar...[but] the God of Jacob is our refuge." And I read this Psalm once, twice, three times—and my shoulders started to lower.

Yes, the earth is changing, and the mountains shake in the heart of the sea. Yes the waters roar and foam, the nations are in an uproar and the kingdoms totter. There is so much to fear. There is so much to pull our shoulders into a knot with worry. There are so many things spiraling out of our control that we all too easily end up mercilessly imposing ourselves in those little areas where we think we could have control. When we look to the earth and it is tottering, and when we look to the sea and it is churning and foaming, we may end up clinging to whatever we can grab that gives us some idea that we will be okay.

"Be still and know that I am God."

How radical a notion that is: stillness. We may hear it and it glosses over like so many pious words, but think about it. When the world is in tumult, the world demands our feverish action. Work to fix it! Plan and delegate and solve! Propose solutions to the ways the world is in upheaval and work tirelessly into the night to ensure those plans come to be! Push for your solutions because someone else's might lead to disaster! Don't stop for a moment because if you stop then the world will spiral out of control!

"Be STILL!"

"Be still. Be Sabbath. Rest. Know that I AM God."

To be still is to reject how the world tells us we must be in control. In stillness, we live in trust that God is truly the one in control. We trust that God will do what we can't—solve the unease and uncertainty that plagues us. We need only to be still.

Beloved of the Lord, you do not have to solve it. You do not have to work tirelessly to fix the little corner of the world that you imagine you have control over. Don't neglect your rest, because God is our refuge and strength, a very present help in trouble. God is in the midst of the city. God will help it when the morning dawns. The Lord of hosts is with us; the God of Jacob is our refuge.

In Christ,

Pastor Lucas

## **Our Savior's Cemetery Association**

I sent a letter to the other trustees at the end of August, that I am resigning my position as President of the board of trustees of The Our Savior's Cemetery Association. I said that I would take cemetery calls until the end of September to give them time to get another trustee, and reorganize the officers.

During my time as trustee we accomplished many things, some very large projects. Some of the projects we hired contractors, some of them one or two people shouldered most of the work themselves and completed the project. Some of the projects were completed by old fashion teamwork.

I want to thank everyone that has helped and supported the work that has been whether done on the referred projects, or the cemetery work days, or Gods Work Our Hands. Thank you all for your help! Also to the trustees that I have worked with current and former.

I ask that you continue to support the trustees of the Cemetery Association as they move forward. There will always be maintenance work to be done, many hands make these jobs easier.

Thank you!

Sincerely

Peter Falde
